Subject: S.B. No. 16 An Act Addressing Gun Violence & Juvenile Crime

Members of the General Assembly Judiciary Committee,

I'm writing in regards S.B. No. 16 An Act Addressing Gun Violence & Juvenile Crime. I cannot support this bill that has 60 pages of infringements on the rights of citizens. We the People, the citizens that politicians are supposed to be protecting and working for, are sick and tired of the woke nonsense and victimizing of criminals who are now running rough shod over our country. When you restrict or eliminate the right to own guns by law abiding American citizens you reduce our ability to be able to protect ourselves in what is becoming an increasingly violent and dangerous environment thanks to decisions by politicians to defund police and allow criminals to run free without posting bail and by giving them a free ride for their crimes.

Guns don't kill people, people kill people. Stop the false narratives and attempts to gain our sympathy by using Sandy Hook and other heinous crimes to gain support for this dishonest robbery of American rights. If the job was done properly in the first place by the people who KNEW the mental state of Lanza for years...this crime would never have been committed But again, in order to be politically correct, they handled the situation incorrectly The "authorities" allowed him to run free and as a result 26 innocent people were killed. How about enforcing our existing laws and working to keep criminals and mentally disturbed people off the streets. **When are you going to protect the rights of the silent majority who legally own guns and who do not commit crimes and hold criminals accountable for their acts?**

Americans have the RIGHT to bear arms under the 2nd Amendment of our Constitution. The idea that our Constitution is "Obsolete" is ridiculous. Right to free speech, right to bear arms, right to assemble, religion etc. are our God given natural rights. Most people today believe that politicians are only interested in controlling the country's population, not in our welfare or rights.

Also, We the People could care less how the United Nations or anyone else feels about our gun rights. It's none of their business. The United Nations is a corrupt organization that wants to envelop the United States and all other free countries under New World Order to be controlled by the UN's real leaders, the criminal elites. In order to control us, the crooked politicians need to disarm us....PRECISELY why our founding fathers put the 2nd Amendment into effect in the first place: To prevent this sort of control and tyranny.

I am voicing my opinion against restriction to the gun rights of Americans as immoral and a crime against our natural rights. I do not wish to see these sorts of restrictions enacted. Politicians are trying to gradually erode our gun rights until they are completely eliminated. If our gun rights are eroded or lost only criminals will have the ability to have guns. History has proved that criminals ALWAYS find a way to acquire guns to commit their violent acts against innocent citizens. The proposed laws will never stop them or slow them down. The argument that gun restrictions will make these crimes go away is a farce. We the People are not falling for this false narrative and assault on OUR rights!

Politicians, do what is right for the American people: Protect our gun rights and vote NO.

Sincerely, Carol J. Popp
